FOR IMMEDIATE RELEASE: LE CHINA PROGRAM

Learning Enterprises China successfully completed its last year of operations this past summer 2019. LE would like to express deep gratitude to our long-standing partners at Nanjing University who have supported our volunteer teaching program in China for nearly two decades. Since the program's founding in the early 2000s, LE volunteers have taught English language classes in various rural villages in both Anhui and Jiangsu provinces thanks to the generous hospitality of the local community and the collaboration of teaching partners from Nanjing University. LE would also like to thank the LE China 2019 team of volunteers and Program Director for their dedication this summer.
